Stage 4 Solutions' Collaboration with AWS re/Start: Addressing the National Cloud Skills Gap

Stage 4 Solutions collaborates with AWS re/Start to address the skills gap for cloud talent by placing AWS Cloud Practitioner-certified graduates with leading employers. This collaboration plays an instrumental role in ensuring that these diverse graduates use their skills and knowledge in meaningful ways and helps companies identify the right talent for entry to mid-level cloud roles.

The World Economic Forum estimates that by 2025, half of the global workforce will need reskilling, and 97 million new roles will emerge because of digitization. LinkedIn's analysis uncovered cloud computing as one of the most in-demand skills in 2023.

Finding qualified talent can be time-consuming and costly. Through this collaboration, we ensure that skilled resources can seamlessly join teams and immediately start delivering value. We can fulfill hiring needs and further diversity objectives.

About AWS re/Start:

AWS re/Start is a cohort-based workforce development training program designed to prepare individuals for cloud-based careers and connect them with potential employers. This program is free of charge for learners and focuses on empowering support for underrepresented groups, minorities, displaced individuals, and young people who are unemployed or underemployed to launch a new cloud career. By providing a blend of coursework and hands-on labs that simulate real-world scenarios, AWS re/Start equips learners with the technical skills they need to excel in entry to mid-level cloud roles.

**AWS Practitioner
Certified
Resources**

**Ready to Start
Delivering Value
Immediately**

**Diverse and
Underrepresented
Individuals**

Let us fill entry to mid-level AWS gaps in your teams!
